

GUIDE YOUR CUSTOMER TO THE 'RIGHT' DAYSTATE

Daystate manufactures the finest PCP airguns in the world. They are the choice of professional pest controllers, target shooting champions, hunters, club shooters and collectors across the globe.

Every Daystate is designed to be super-versatile, so every rifle can be used for every shooting discipline. However, to ensure the best performance and shooting experience, Daystate recommends matching a shooter's individual needs to a specific rifle model.

The **ID MATCH** programme lets your customers choose the best model for *them*...

1 Identify your customer's primary type of shooting

HUNTING (PEST CONTROL)

GENERAL PURPOSE (PLINKING)

CLUB (INFORMAL)

BENCHREST TARGET

FIELD TARGET (FT) / HUNTER FIELD TARGET (HFT)

From time to time, Daystate releases special Limited Edition models (eg Red Wolf 'Heritage'). These are specifically aimed at airgun collectors, rather than active shooters of the above categories.

2

Match your customer to their best-suited model(s)

Match your customer's primary shooting needs from the list of current Daystate model(s) over the page.

From the short list of ID MATCHED models – and using the official website for more detailed information if necessary – your customer can then consider factors like cost, style, stock type, etc. before making their final purchase.

DAYSTATE.COM

DELTA WOLF

The world's most advanced airgun, with a future-proofed computer system at the heart of its electronic action. Ultimately designed for the precision target sport of benchrest, its bullpup design makes it equally suitable for serious pest control use

Now equipped with...

- **Huma-Air Regulator**
- **Sidelever Cocking**
- **New Self-Indexing Magazine**

* Power is calibre dependent: max 18ft/lbs (24J) in .177";
max 30ft/lbs (40J) in .22"

- Please use **ID MATCH** in conjunction with the current catalogue, the latest specifications for which are shown on the official website www.daystate.com
- Many Daystate models are also available in sub-12ft/lb formats, and certain specifications may change to suit lower-power configuration. Not all models will be available in all territories due to prevailing laws
- Competition rules for Benchrest, FT and HFT may vary between territories, so **ID MATCH** is offered as a guide only for these. Checks should be made with the ruling body(ies) prior to purchase to ensure the Daystate model is compliant
- Quoted weights will vary according to materials/options fitted
